Mr. Keshav Kaniram Rathod
President,

From President's Desk...

The Prime Minister of India - Hon. Narendra Modi has established the Ministry of AYUSH and has given priority to the subjects of Yoga, Naturopathy and Ayurveda in that ministry. The Ministry of AYUSH has been established with the aim of promoting Yoga, Naturopathy and Ayurveda treatment methods and freeing the country from the serious diseases of the country through those methods.

Inspired by the dream of Hon. Prime Minister Shri Narendra Modi, the organization has also established a new branch of Yoga and Naturopathy, Jeevan Anand Health Foundation Asola Bu. This organization has established a college of Yoga, Naturopathy and Dietetics in rural areas at Mauje Asola Bu, Taluka Chikhali, Dist. Buldana from the year - 2024 - 25.

The organization has obtained the permission of the Government of Maharashtra on 15 July 2024 and the approval no. HTED - 29010 /4/ 2024 / 811204 - MHT-(HE-4) Mantralaya Vistar Bhavan, Mumbai. The organization has obtained affiliation with the University of Maharashtra, Kavikulguru Kalidas Sanskrit University Ramtek Dist. Nagpur and the approval No. KKSU/BPD/Affiliation/2024-25/299 Dt. 30/07/2024. Kavikulguru Kalidas Sanskrit University, Ramtek District, Nagpur has created a special curriculum called B.Sc (Yoga, Naturopathy & Dietetic) in which Yoga and Naturopathy are the subjects recognized by the government. The above college has become the first college in Maharashtra to offer this curriculum.

Along with this, the college has obtained the recognition of B.A (Yoga Science) degree college with the aim of producing yoga teachers on a large scale for the arts branch. The institution has established the Naturopathy College to provide relief from many common diseases by treating the poorest of the poor in the country with Naturopathy at the lowest cost.

Since man is made up of five elements, Naturopathy has proven that if you treat those five elements, you can cure even the biggest diseases. And since those five elements, earth, water, sky, air, and fire are available on the earth in large quantities, treating them with those elements means that it is possible to treat them at the lowest cost

and on a large scale. Keeping this in mind, the institution has established the College of Yoga and Naturopathy.

This method of natural therapy is completely safe and has no external effects. Therefore, it does not have any adverse effect on humans. Therefore, the institute has established the college with **Yoga and Natural Therapy** as its main subject. However, to benefit the maximum number of people, the Central Government is establishing Yoga and Natural Therapy Treatment Centers (Dispensaries) at the right places in the country and the students who complete both the courses in that treatment center can easily get a job there.

After completing the said course, they can establish their own treatment center or can get a job in the government. Currently, there is a great demand for students yoga & Naturopathy in the hospital.

By taking maximum advantage of this demand, they can get self-employment and employment. The institute has established a Yoga and Natural Therapy Center to provide good knowledge and skills to the students of the college and the students will get a 1-year internship after 3 year course in this center.

However, it is a humble request to the parents, students and the public to take advantage of this golden opportunity,

Mr. Prof. Keshav Kaniram Rathod

President, Jeevan Anand Health Foundation,
